MINING DEEDS FOR SALE AT THE
OFFICE.

THE CITIZEN.

FRIDAY, AUGUST 29, 1879.

LOCAL MATTERS.

From Wednesday's Daily.

ON the subject of the street ordinance
that the city, complaint is made. It is said
that the street were property owners at
one time not to throw water into the
streets, at another, not to throw into the
streets, or any where but in the
streets. Some persons are allowed to
throw water into the street at any time,
while others are watched very closely and
threatened with prosecution at the first
violation of the ordinance. In regard to
obstructions of the sidewalks and road-
ways it is charged that some parties al-
ways have boxes of something or other
some, in front of their premises and noth-
ing is said about it, while a very tem-
porary obstruction by others brings down
official warning. It is certain that stop
water should not be thrown into the
streets, and that our narrow thorough-
fares should not be filled with refuse or
goods packages; but the administration
of the system should be uniform and
without discrimination.

PHIL SHUSSLER has moved his jewelry
store up on Church Plaza where his pa-
trons will find him nicely located with
his excellent stock and as obliging as ever
in his manner.

A. D. OTIS & Co., received to-day an-
other car load of California red wood lum-
ber and shingles from the end of the
track. Their stock of good building ma-
terial is rapidly increasing.

OUR local artist Prof. Bushman is doing
business in the line of photo-
graphs, etc. He also has a choice lot of
brackets, ornaments, pictures, etc., beau-
tiful and cheap. Go see him.

OUR enterprising liquor merchant Mr.
H. Horton unloaded a large invoice of
choice liquors, cigars, etc., at his place on
Main street, this morning. This information
is for the benefit of buyers and tasters.

CAPT. BEAUFORT, the well known and
successful scout is once more in town.

Thursday's Daily.

SERIOUS injury to a number of people
was narrowly avoided, last evening at
five o'clock, by the fact that the people
were not right there to be injured. Shuts,
the confederator was having a ramada
built at the rear of his store on Congress
street, for the accommodation of his new
baking apparatus. The Vegas wore up
the augurs were laid on, and the Mexi-
can workmen were piling up the mud,
when just at the right moment when no-
body was under it, the whole concern fell
to the ground with a crash. One man was
on top, but he was only shaken up a
little, and covered with dust. He had
been known to utter a word of
English before, but the bystanders aver
that on this occasion he was distinctly
heard to say something very like an En-
glish oath.

THE chain gang are digging down the
high places and filling up the low places
so thoroughly, and making all the cracked
places so very straight that the region
around the Cosmopolitan scarcely knows
itself. The people on Pennington street
will soon be getting on air, talking of
their "high spots" and "basement
doors." But citizens who wish to get
around some of those corners successfully
will have to borrow machinery of the
files; no hiped men circumnavigate any
house on such an imaginary sidewalk as
is left by the chain gang in some places.
Perhaps the "Fathers" expect the in-
auguration of a system of depressed rail-
ways in Tucson, and are merely casting a
shadow before the coming event. Quies-
sant!

MR. WM. F. GUILD, accompanied by his
wife and child, arrived by coach from
Florence yesterday and are stopping at
the Palace Hotel. Mr. Guild has just
completed a term of service in the Signal
Corps, where he has made an excellent
record as a reliable and efficient man.
Through associates Mr. Guild has secured
some excellent interests in the Santa Cata-
rina gold mines, and thus has a very
flattering prospect for future greatness in
a financial sense. We are pleased to wel-
come Mr. and Mrs. Guild and trust they
will ever be happy and never lose pros-
perity.

THE feast of San Agustin was started off
with flying colors last night. The old
Saint must be delighted that he is so long
remembered. The approaching anniversary
of his death was announced by the
firing of guns, ringing of bells, etc. The
feast grounds were brilliantly lighted at
night and the feasting people quite nu-
merous. We understand the opening was
as hot as brick as formerly.

THE hotel and building apparatus for the
Tombstone Company's holding works ar-
rived in town to-day and will be sent on
at once to the mine. The boiler is an up-
right, and some thing about the machin-
ery seems to be of the very best as every
thing that Company has sent into the
country.

A. D. OTIS & Co., shipped a load of Cali-
fornia shingles to Tombstone yesterday
and two loads to-day. This firm is build-
ing up a large wholesale trade with the
adjacent towns, and their patrons may be
assured of satisfaction.

MR. C. H. LIGHT returned from San
Francisco yesterday and will now be
permanently engaged in business in Ariz-
ona.

WHITE Mince Grapes, Bartlett Peaches,
Peaches, Table and Cooking Apples,
Dried and Canned Fruits, also those De-
licious Mackerel in kits, Pickles in kegs
and California Roll Butter on ice, always
to be found at Pierce & Wood's.

MARK LULLY and Chas. Moroney have
opened a Real Estate office on Congress
street, and invite patronage. They are
young men and energetic and ought to
succeed.

LEO. GOLDSCHMIDT received a large in-
voice of new furniture to-day and has
50,000 pounds more at the end of the rail-
road. He is prepared to fit out homes
with the many necessary comforts.

JOHN R. DALL & Co., have already built
up a large wholesale trade in the liquor
business. Their stock is open for inspec-
tion at their store on Mesilla street.

APOLLINARES Natural Mineral Water
just arrived at John R. Dall & Co.'s whole-
sale liquor dealers, Mesilla street, between
Main and Meyer streets.

STRANGERS coming to Tucson should
not forget to visit the Pioneer News De-
pot.

SUPPL. WHITE of the Contention came
in town again yesterday and reports gen-
eral progress.

PIERCE & WOOD have just received an
immense supply of bacon, ham, cheese,
lard, potatoes and onions.

MRS. A. G. RYAN returned yesterday
much improved by her visit to the coast.
STATIONERY at Earl & Co.

To-day's.

THE public have always been lacking
confidence in "pansbrokers" shops, from
the fact that they were here today and
away to-morrow, they having no regard
for the patronage of their customers,
merely trying to take advantage when-
ever they could. We must note one ex-
ception in this State, and that is the estab-
lishment of Uncle Harris, the celebrated
pioneer No. 221 Kearny street, between
Bush and Sutter.

MR. CASH is succeeding nicely with his
Piano business, having already local-
ized the play and partially arranged the
cast. Considerable interest has been
manifested by the public and no doubt
the enterprise will be a grand success. The
prominent position he has assigned to the
editor of THE CITIZEN quite pleases our
vanity. Thanks Mr. Cash call again.

MR. BLICKER returned from Florence
last evening and will continue on to
Tombstone in a day or two, where he will
at once establish a first-class hotel. Mr.
B. has had two years experience in this
business in Florence, and when he opens
his new home he will doubtless receive
the liberal patronage he deserves.

MR. J. McCAFFERTY returned from Cali-
fornia by coach last evening and informs
us that he will be at once put about twenty
men at work on his company's mines in
Arivaca. We like to see the developments
go on.

A SPLENDID plate case Gold Stem-wind-
ing Waltham Watch, full chronometer
movement, patent pinioned, patent dust
cap, originally cost \$115, will be sold for
\$75, at Uncle Harris', 221 Kearny street,
between Bush and Sutter.

MR. J. S. CLARK will put a shingle roof
on his new ice building. He already has
about 15,000 shingles on the ground and
the roof will soon be on.

THE stage last evening was five hours
late having taken aboard an over dose of
Star telegrams.

Accident at the Tiger.

News was brought to town at noon
to-day by George Shrykes of the oc-
currence of a terrible accident at the
Tiger mine this morning between 7
and 8 o'clock, by which two miners,
Jack Sullivan and Jack McDonald,
were instantly killed and three more,
Messrs. Hickey, Reese and McCul-
lough seriously injured.

The men were at work on the new
shaft, which has now reached a depth
of 300 feet, and had just been relieved.
Mounting the bucket the signal was
given to hoist away. All went well
until the bucket had reached a height
of about 100 feet, where the cable be-
came unfixed from the spool, allow-
ing the bucket to fall, precipitating the
whole party to the bottom of the
shaft, with the terrible result above
mentioned.

The dead and wounded were brought
to the surface and every possible care
given to the injured men to relieve
their sufferings, while Mr. Shrykes
hastily mounted his horse and came to
Prescott for medical assistance, a dis-
tance of about forty-two miles. Drs.
McKee and Ainsworth, from Fort
Whipple, went out to attend to the
wounded men. [Miner, August 23.]

A Card.

TUCSON, A. T., August 29, 1879.

EDITOR CITIZEN: Allow me most
earnestly to protest against being held
responsible for either the language or
spirit of the articles recently appear-
ing in the newspapers in relation to
our unfortunate church troubles.

None of them have been either written
or inspired by me, and no one can re-
gret their appearance and effect more
deeply than myself. Only evil can
come of this discussion, therefore I
earnestly request both papers to drop
this subject and call upon all to aid
in establishing that feeling of peace
and good will essential to the cause of
Christianity. J. E. ANDERSON.

A NEW United States mail line is
proposed, to start from Alamosa, Col.,
the terminus of the Denver and Rio
Grande Railroad, and end at Camp
Mohave, on the Colorado. It would
thus traverse the whole length of
Northern Arizona.

THE Commercial says: "Grapes
are twenty cents a pound in Tucson,
Arizona, and two cents a pound in Los
Angeles. The time of transit is about
seventy-two hours between Los An-
geles and Tucson. Who makes the
profit?"

ATCHISON, Topeka and Santa Fe
Railroad stock is worth 110 in Boston.

HAY at Leadville, \$100 per ton.

CABINET SALOON,

JUST OPENED,

BOTTLED UNDER A NEW PROCESS,
preserving the beer in its original con-
dition, retaining all the tonic properties,
delicious flavor and freshness as when
drawn from the wood. Guaranteed to be
perfectly pure and to keep in any climate.

Zeckendorf & Staab

SOLE AGENTS FOR ARIZONA.

The Largest Ferry-Boat in the World.

A San Francisco exchange gives the
following interesting description of a
new and powerful railroad ferry-boat
which is nearly completed at the Oak-
land docks. She is named the Solano,
and will soon be ready for launching.
She is longer than the City of Pekin
and wider than any vessel afloat, as
will be seen by the following dimen-
sions: Length, 424 feet; height of
sides in center, 18 feet 5 inches; width
over guards, 116 feet. The Solano will
have two vertical-beam engines of
sixty-inch bars and eleven inch stroke,
built by Harlar & Hollingworth, Phil-
adelphia. The wheels are thirty feet
in diameter, with buckets having a
face of seventeen feet. Eight steel
boilers, each twenty-eight feet in
length, will be provided, and will be
made in pairs, with a smokestack to
each pair. Four Pratt trusses give a
longitudinal stiffness and connect the
deck and bottom of the boat in true
bridge style. She is a double ended,
and has four rudders at each end, worked
by a hydraulic steering apparatus oper-
ated by an independent steam pump.
By this improved method of steering
she can be handled by one man, where-
as ordinarily three would be required.
The engines work independently and
moving one wheel, which will revolve
independently of the other. The boilers
are placed upon the deck to pre-
vent the escaping steam from rotting
the wood. The hold is divided into
eleven water-tight compartments,
which render her less liable to sink,
and also strengthen her. Four tracks
will be placed upon her decks which
will accommodate forty-eight freight
cars or twenty-four passenger coaches.
Her slips will be provided with aprons
100 feet in length, which will admit
of cars being taken aboard without
uncoupling from the engine. The
Solano is intended to run between
Martinez and Benicia, where slips are
being built for her. By this route the
distance between San Francisco and
Sacramento will be but eighty-five
miles instead of 140 miles via Liver-
pool, and 151 via San Pablo.

THE following charge was given by
Chief Justice L. Bradford Prince, to
the Sheriff and his deputies at Las
Vegas recently. The spirit of it ap-
plies here as well as in New Mexico,
though the letter of the law is not the
same:

Officers—I have asked you to come
here to-day for the purpose of calling
your attention to the statutes having
reference to your duties. You are to
enforce the law against carrying dead-
ly weapons, and a failure to do so sub-
jects the offender to a fine of \$50, yet
this law is openly violated here in Las
Vegas. Every difficulty that occurs in
town grows out of a violation of this
law, which should be strictly enforced
now that the influx of population,
brought by the arrival of the railroad,
renders such difficulties peculiarly in-
tolerable. It is your absolute duty
to arrest every man found violating
the law and take him before a justice.
It involves too great a danger of life.
These people are subject to fine and
if they cannot be taken before a jus-
tice, it is your duty to report their
names to the district attorney.

THINGS have advanced so far in
Utah that the grandfather of an En-
glish girl who came over with a party
of Mormons, dared to interfere with
the proceedings at the Endowment
House, and rescue his grandchild from
a forced polygamous marriage with
one Hermon. This fact speaks loudly
for the decline of the law-defying
power in our neighbor Territory.

By a letter recently received from
Charleston, we get the information
that the Tombstone mill is turning
out bullion more rapidly than ever,
that is to say a bar a day of over \$2000
each; also that the developments in
the mine (Tough Nut) are showing
better and better, and the management
are particularly well pleased with the
outlook.

D. W. CLEARWATER has arrived
from the Signal country, and informs
us that the Signal mill has commenced
to pound away again, and it is the
general opinion that it will make a
success this time. The Cedar Valley
mill was about completed when he
left. There has been a great deal of
rain through that section of the coun-
try. [Arizonan, August 22.]

THE proprietor of Woodward's Gar-
dens, San Francisco, is dead. It is to
be hoped the Gardens may continue
to prosper. They are the Mecca of the
rural editor; the spot from which he
always dates one letter at least. Wood-
ward, spare that Garden!

At the Tiger mine a shaft bucket
fell a hundred feet by the breaking of
the rope, Jack McDonald, Jack Sul-
livan, Hickey Reese and another Mc-
Donald were in the bucket; the first
two were killed, the others were severe-
ly wounded.

From the Engineering and Mining
Journal of August 6:

Tip Top has been fairly active, al-
though during Tuesday and Wednes-
day there were no transactions. The
sales of the week amounted to 1900
shares, at \$1.10 @ \$1.25.

CONTRACTS for supplying reserva-
tion Indians in New Mexico and Ariz-
ona have been let in Washington by
the contract department of the Indian
Bureau. Bids taken are said to be
low.

"That picture" of Tucson is again
on duty, this time in the Pacific Rural
Press. It makes a Tucsonian feel as
though he were at home just to look
at it.

When they are all figured up the
people of Maricopa County find their
taxes amount to nearly 4 per cent.
of the assessed value of property, in-
dependent of the threatened railroad tax.

THE last news in California is that
"Pinarof" has reached Arizona, and
the Apaches are striking out for New
Mexico.

LEAVE of absence for one month
has been granted Second Lieutenant
Horace B. Steele, Twelfth Infantry.

THE Mohave October term of court
has been postponed to December 1.

LEGAL blanks at Earl & Co.

New novels at Earl & Co.

The Mexican Presidency.

CITY OF MEXICO, August 15 (via Ha-
vanna August 21)—President Diaz con-
tinues to decline to serve another
term, even if the constitutional amend-
ment against his reelection is re-
pealed. Many persons believe that
the secret partisans of Diaz are keep-
ing the reelection question contin-
ually before the public and fostering
the excitement, and that Diaz will, at
the last moment, accept a reelection
in deference to the people's will. Many
foreigners, instigating revolution in
the country, have been expelled by Diaz.

A cubic inch of gold is worth \$210
—a cubic foot, \$302,880; a cubic yard,
\$9,797,762. This is valuing it at \$18.69
an ounce. At the commencement of
the Christian era there was then in the
world \$427,000,000 in gold. This had
diminished to \$57,000,000 at the time
America was discovered. Then it be-
gan to increase. Now the amount of
gold in use is estimated to be \$6,000,
000,000. Yet all this wealth into one
mass would be contained in a cube of
twenty-six feet.

THE Contention hoisting works are
about to start up.

H. Buchman,

PHOTOGRAP
